

Iridium GO! exec[®] LITE Single Mode Antenna Kit (No GNSS)

FACT SHEET

The LITE Kit is your solution for smooth connectivity on solid ground or the open seas.

Land

Connect wherever you go! The Iridium GO! exec LITE Single Mode Antenna Kit mounts to any building, extending satellite communication connectivity indoors. Remote workers, scientists, aid workers, and adventure-seekers alike can make high-quality voice calls and use messaging apps over Iridium Certus[®] 100 midband service.

Maritime

When you need to stay connected at sea, the LITE Kit is your solution. Using its external antenna, you and your passengers can stay updated on changing conditions, or connect with colleagues and loved ones via phone, chat apps, email, or social media – all from the comfort of your personal vessel.

Note:

- Iridium GO! exec firmware version 1.0.6 or higher required.
- Accuracy of location services depends on where your device is situated. The LITE Kit is ideal for users who need a complete solution to extend location services indoors.
